Independent Auditor's Report

Board of Directors Christian Church Foundation, Inc. Indianapolis, Indiana

We have audited the accompanying consolidated financial statements of Christian Church Foundation, Inc. and its subsidiaries, which comprise the consolidated statements of financial position as of December 31, 2020 and 2019, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Christian Church Foundation, Inc. and its subsidiaries as of December 31, 2020 and 2019, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Note 1: Nature of Operations and Summary of Significant Accounting Policies

General and Principles of Consolidation

The Christian Church Foundation, Inc. (Foundation) was incorporated as a not-for-profit organization in November 1961, under the laws of the state of Indiana. The consolidated financial statements include the accounts of the Foundation, the Joint Investment Trust of the Foundation (Trust), and the Oreon E. Scott Foundation. All significant intercompany accounts and transactions have been eliminated in consolidation.

The Trust, of which the Foundation is Trustee, exists exclusively to receive and to administer cash and property transferred by any ministry affiliated with the Christian Church (Disciples of Christ) (Church) or any other ministry determined to be sufficiently affiliated with the Stone-Campbell Movement. Assets held by the Trust are held exclusively for charitable purposes, with no unexpired, non-charitable interests. Management of the Trust is the responsibility of the Foundation.

The Oreon E. Scott Foundation (Scott Foundation) was established in 1950 to promote religious, charitable, benevolent, scientific, literacy or educational purposes within the United States. In 1974, the Scott Foundation was reformed to bring it under the control of the Christian Church Foundation. Three individual trustees, elected by the Foundation, are selected from among the presidents of General Units of the Church as named by the Scott Foundation. No Foundation employees are eligible to serve as individual trustees of the Scott Foundation. The Scott Foundation is a grant-making foundation, with annual grants determined based on a majority vote of the individual trustees.

The Foundation seeks to support all of the ministries of the Church by providing opportunities for the stewardship of accumulated resources through planned giving on the part of individuals and through prudent investing and endowment policy development on the part of Church institutions. The Foundation is engaged primarily in educating individuals about planned giving and Church partners about prudent investing, receiving gifts and investments, and distributing funds for support of the many ministries of the Church. Support for the Foundation's operations is primarily received from its investment and fund management services. The Foundation is a donor-directed ministry, which means that most donors either direct or advise the Foundation as to the ministries which will benefit from their gift.

Upon mutual agreement, congregations, regions, general units and other institutions affiliated with the Christian Church (Disciples of Christ) may utilize services offered by the Foundation including bookkeeping, record keeping, electronic data processing and other administrative support.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of the revenues, expenses, gains, losses and other changes in net assets during the reporting period. Actual results could differ from those estimates.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Cash and Cash Held in Investments

The Foundation reports only its petty cash and bank deposits in federally insured accounts as cash. Due to the investing nature of the Foundation's operations, short-term, highly liquid investments are treated as investments rather than cash equivalents. All deposits held in noninterest-bearing accounts are aggregated with any interest-bearing deposits and the combined total is insured up to \$250,000 per financial institution. At year end, these deposits include gifts and new investments received by the Trust during the month of December, which were first eligible to buy into the various funds of the Trust on January 4, 2021. At December 31, 2020, total cash exceeded the federally insured limits by approximately \$5.5 million.

Marketable Securities and Other Investments

Investments are carried at fair value. For those investments with no quoted market prices, fair values used were those provided by the managers of the investment funds. These estimated values are subject to uncertainty and, therefore, may differ significantly from the value that would have been used had an open market for such investments existed. Such difference could be material. Realized and unrealized gains and losses are reflected in the Consolidated Statements of Activities for those investments that are a part of the Foundation's net assets.

Investment return is reflected in the Consolidated Statements of Activities as with or without donor restrictions based upon the existence and nature of any donor or legally imposed restrictions.

Property and Equipment

Property and equipment and items which substantially increase the useful lives of existing assets are capitalized at cost and depreciated on the straight-line method over their estimated useful lives, which range from three to ten years.

Income Taxes

By virtue of its inclusion in the group exemption ruling of the General Assembly of the Christian Church (Disciples of Christ), the Foundation is exempt from federal income taxes under Section 501(c)(3) of the U.S. Internal Revenue Code. As a religious organization, the Foundation is not required to file U.S. Federal tax returns. The Foundation could, however, be subject to examinations by tax authorities for all years since incorporation.

Net Assets

Net assets without donor restrictions represent assets that could be legally expended by the Foundation for charitable purposes chosen by the Foundation. These assets include testamentary gifts for which the Foundation established a named endowment fund, if such gift was not legally restricted for endowment or for a legally-restricted purpose by the donor. They include board-established endowments for the support of the Foundation's own operations. Also included are donor-advised funds, where the donor has the ability to advise the Foundation on future distributions, and the Foundation's operating reserves. At December 31, 2020 and 2019, the value of endowed accounts established without donor restrictions was \$22.9 million and \$21.7 million, respectively. Donor-advised funds were \$9.0 million and \$8.2 million, respectively.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Net assets with donor restrictions include legally-restricted gifts making regular distributions for the benefit of charitable causes selected by their donor, estimated charitable residuals for life-income gifts which will create endowments at the Foundation when the life-income portion of those gifts has ended, and state-required charitable gift annuity reserves. At December 31, 2020 and 2019, the value of endowment accounts held directly by the Foundation was \$172.3 million and \$156.2 million, respectively. Scott Foundation endowment assets were \$8.9 million and \$8.3 million, respectively, and non-endowment gifts making donor-restricted charitable distributions were \$2.1 million and \$3.6 million, respectively. Amounts related to the Foundation's life-income gifts were \$12.3 million and \$11.5 million, respectively.

Contributions

Contributions received without donor stipulations are reported as revenue and net assets without donor restrictions. These gifts generally represent donor-advised fund gifts and are not available to the Foundation without further action by the Foundation's board. Gifts received for an immediate donor-directed purpose are disbursed when received and are not recorded as contributions. Contributions received for endowment funds are reported as revenue and net assets with donor restrictions. The charitable portion of life-income gifts, if intended for an endowment fund at the Foundation, is reported as revenue and net assets with donor restrictions. Charitable distributions from permanent funds are shown as "net assets released from restrictions" in the period of disbursement. Contributions with and without donor stipulations are received in the form of cash or marketable securities and are recorded at their fair value on the date of the gift.

Cost Recovery Charges

The Foundation receives compensation for certain provided services through cost recovery charges. For charges assessed to investors and for endowments and other gifts held as part of the Foundation's liabilities, this cost recovery income is presented in the Consolidated Statement of Activities as income from services provided. For charges related to gifts with donor restrictions, cost recovery income is shown on the Consolidated Statement of Activities as net assets released from restrictions – for Foundation services. Cost recovery charges are collected and recognized monthly based on the type of services provided and the fair value of the managed asset.

Subsequent Events

Subsequent events have been evaluated through February 25, 2021, which is the date the consolidated financial statements were available to be issued.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Note 2: Financially Interrelated and Affiliated Organizations

The Church includes all those organizations that are listed in the Annual Yearbook and Directory of the Christian Church (Disciples of Christ) (Yearbook). Most of these organizations are individually incorporated with their own Board of Directors. Individual Church entities are generally independent and responsible for their own personnel policies, financial matters, program activities and other corporate matters which are affiliated by the common cause of the Church. All organizations included in the Yearbook are considered ministry partners affiliated with the Foundation.

The General Board, on behalf of the General Assembly of the Christian Church (Disciples of Christ), elects the Board of Directors of the Foundation. The Foundation and the General Assembly of the Christian Church are considered to be financially interrelated organizations.

Note 3: Endowment

The Foundation's primary ministry is to support the Church in perpetuity by providing opportunities for the stewardship of accumulated resources through planned giving. In conjunction with this ministry, the Foundation maintains approximately 1,300 named endowment funds that are recorded as a part of the Foundation's net assets. Named permanent endowment funds include both donor-restricted endowment funds and funds designated by the Foundation's board of directors to function as endowments (board-designated endowment funds). As required by accounting principles generally accepted in the United States of America (GAAP), net assets associated with endowment funds, including board-designated endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Foundation's board of directors (Board) has concluded, absent explicit donor stipulations to the contrary, that the Foundation's donor-restricted endowment funds should be governed under Indiana law. Most of the Foundation's donor-restricted endowment funds are also governed in accordance with the terms of individual gift agreements which specify or clarify the donor's wishes regarding how the endowment fund will be administered. The Foundation is required to act in good faith to determine the prudent expenditure from its endowment funds, giving full consideration to (1) the duration and preservation of the endowment fund, (2) the purposes of the Foundation and the endowment fund, (3) general economic conditions, (4) the possible effects of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation and (7) the investment policy of the Foundation. The Foundation's gift agreements seek to balance the dual goals of providing maximum funds for ministry while also preserving, over the long-term, the value of each donor's endowment gift.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Under these agreements, endowments continue to distribute income to the ministries chosen by their donors, even when an endowment fund's fair value falls below the amount of donations to the fund. The Foundation reviews endowment funds that fall below their original gift values and may temporarily reduce the distribution from these funds to allow these endowments to recover their investment losses over time, while continuing to make meaningful distributions for ministry. By policy, the full distribution amount is restored when the fund balance has grown to exceed the amount of the original gift(s) plus one full year of that fund's distributions for ministry. At December 31, 2020 and 2019, endowment funds with original gift values of \$14.1 million and \$15.9 million, fair values of \$13.5 million and \$14.6 million, and deficiencies of \$.6 million and \$1.3 million, respectively, were reported in net assets with donor restrictions.

Foundation donors may recommend one of five investment mixes for the investment of their gifts. To satisfy its long-term rate of return objectives, the Foundation relies on a total-return strategy in which investment returns are achieved through both current yield (investment income such as dividends and interest) and capital appreciation (both realized and unrealized). The Foundation targets diversified asset allocations to achieve its long-term return objectives within prudent risk constraints. Based on 10-year asset class assumptions for each asset mix offered by the Foundation, the predicted long-term return, net of all costs and expenses, for the Common Balanced Fund is 5.55%, for the Beasley Growth Fund is 6.05%, for the Campbell Multi-Strategy Fund is 6.55%, for the Bostick Select Fund is 6.35%, and for the Brown Fund is 4.05%. For 2019 and 2020, the Foundation's spending policy, which retains a portion of each year's predicted earnings to offset inflation, was 3.75% of the monthly average balances for the Common Fund, 4.0% of the monthly average balances for both the Beasley and the Bostick Funds, 4.25% of the monthly average balances for the Campbell Fund and 2.5% of the monthly average balances for the Brown Fund.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Changes in endowment net assets for the years ended December 31, 2020 and 2019 were:

The Foundation's ministry is to provide members, congregations, and other ministries of the Church with planned giving and endowment fund education and services. In conjunction with its planned giving education and services, the Foundation offers free seminars to congregations and personal assistance to potential donors who may wish to consider making a planned gift that benefits one or more ministries of the Church. An important part of the Foundation's ministry is to provide donors a place where their gifts will be maintained in perpetuity for the benefit of their chosen ministries. In its endowment fund education and services ministry, the Foundation assists

Notes to Consolidated Financial Statements December 31, 2020 and 2019

these varied ministries with the development of endowment fund policies designed to both encourage gifts and prudently invest endowment funds. In this regard, the Foundation offers any Church ministry both counsel on the development of endowment policies and several investing opportunities. The Foundation's investments are offered only to ministries affiliated with the Stone-Campbell Movement and are designed to maintain the endowment funds of these ministries in a way that honors the dual goals of providing funds for ministry while also growing endowment gifts to mitigate inflation.

All employees of the Foundation are actively involved in these Program Services of the Foundation, and most are responsible for both Gift Education and Services and Investment Education and Services. As a result of the integrated services provided, the Foundation does not separately account for the costs of its Gift and Investment programs.

In addition to its Program Services, the Foundation maintains payroll, personnel, and financial reporting functions that are primarily administrative in nature. Expenses for these functions, the cost of the Foundation's annual audit, and expenses related to the Foundation's board of directors are reported as management and general expense.

From time to time, the Foundation will receive donations that support the Foundation's own ministry from staff, board members, and from other friends of the Foundation. The Foundation does not solicit gifts for the benefit of the Foundation's own ministry, however.

Certain expenses are attributable to both the program services and the management and general categories. These expenses require allocation on a reasonable basis that is consistently applied. Expenses that are allocated include occupancy (based on square footage), personnel and travel costs (based on time and effort), and professional and miscellaneous fees (based on review of each specific charge).

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Note 5: Marketable Securities and Other Investments

The Foundation's investments and their fair values at December 31 are as follows:

	<u>2020</u>	<u>2019</u>		
Investments in unrelated parties:				
Short-term investments				
Deposits held as investments	\$ 6,206,719	\$ 7,993,662		
Stock and stock funds

Global	8,965,150	82,432,948		
Alternative investments				
Hedge	51,584,909	45,049,745		
Real assets	8,173,299	7,302,099		
Notes receivable	337,282	349,852		
Annuity contracts	1,215,913	_		
Investments in related party:				
Church Extension notes	25,100,512	21,906,353		
Total	\$ <u>942,373,727</u>	\$ <u>852,550,340</u>		

At December 31, 2020 and 2019, the fair value of approximately 22% and 30%, respectively, of the investments were provided by the managers of the funds.

The assets of the Foundation are largely comprised of diversified investment securities. All investment securities carry inherent risks such as interest rate, market and credit risks. It is at least reasonably possible that near-term changes in the values of investment securities will occur. The Foundation does not anticipate that such changes would materially affect the operations of the Foundation.

In addition to managing the Foundation's own endowment funds, the Foundation also provides investment services to Disciples and other Stone-Campbell ministries. Investment in the Trust which are owned by other church partners are shown on the Consolidated Statements of Financial Position as partner investment accounts. Court-governed endowment funds held for the benefit of other charitable beneficiaries, as well as endowments funded by a Disciples ministry with the income payable to them are reported as endowment funds held for the benefit of others. These funds are invested in the same pooled funds that contain the Foundation's own permanent funds. The net investment return reported on the Consolidated Statements of Activities includes only the investment return from investments which are recorded as a part of the Foundation's net assets.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Net investment return is shown net of the related investment fees, which includes transaction costs and other service fees that may not be separately identifiable from the reported results. Net investment return is reflected in the Consolidated Statements of Activities as without donor restrictions or with donor restrictions based on the nature of donor agreements or legally imposed restrictions. The components of net investment return, which excludes income on investments for partner investment accounts and other funds held for the benefit of others, are as follows:

		<u>2020</u>		<u>2019</u>
Interest and dividend income	\$	9,200,029	\$	5,295,038
Realized and unrealized gains and losses		13,370,089		31,474,223
Separately reported fees		(155,765)	_	(163,349)
	\$ <u></u>	22,414,353	\$	36,605,912

Note 6: Disclosures About Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value hierarchy measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying Consolidated Statements of Financial Position, as well as the general classification of such assets pursuant to the valuation hierarchy.

Marketable Securities and Other Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or discounted cash flows. Such securities are classified as Level 2. There have been no significant changes in valuation techniques during the year ended December 31, 2020.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

The following table presents the fair value measurements of assets recognized in the accompanying consolidated statements of financial position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2020 and 2019:

Notes to Consolidated Financial Statements December 31, 2020 and 2019

The following table presents information regarding funds with fair value that is determined using the net asset value (or its equivalent) provided by the fund. There were no unfunded commitments for 2020 and 2019.

	2020 Fair Value	2019 Fair Value	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Acceta	Tall Value	raii vaiue	Liigibie)	Notice Feriou
Assets				
Investments				
Bonds and bond funds				
Global (a)	\$ -	\$ 73,366,820	Semimonthly	5 business days
Alternative investments				
Hedge (b)	51,584,909	45,049,745	Quarterly Semimonthly Annually	30 to 90 days
Total	\$ <u>51,584,909</u>	\$ <u>118,416,565</u>		

- (a) This category includes investments in a common trust fund that invests in global bonds. There is no restriction (lock-up) period for these investments.
- (b) This category invests in direct hedge funds. The direct hedge funds blend investment strategies and geographic region while limiting costs. There are currently 7 direct hedge fund managers. Oversight and due diligence is performed by the Foundation's independent investment consultant as well as Foundation Board of Directors and staff. Direct hedge funds use various strategies that include long/short equity and credit, event-driven, distressed and others. The fair values of the investments in this category have been estimated using the net asset value per share of the underlying investments.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Note 7: Life-Income Gift Agreements

The Foundation administers a charitable gift annuity program on behalf of many of the ministries of the Church. All assets or proceeds from assets received in exchange for a charitable gift annuity are segregated in a separate fund and are not commingled with other Foundation assets. At December 31, 2020 and 2019, the fair value of the investments in this fund was \$7.7 and \$8.1 million, respectively. The obligation to pay the annuity amount to annuitants is a general obligation of the Foundation and is estimated using the applicable federal rate (AFR) at the gift date. Those rates range from 0.4% to 10.2%. At December 31, 2020 and 2019, the obligation for future annuity payments was \$3.6 and \$4.1 million, respectively. The present value of the liability to income beneficiaries of charitable gift annuities is included as a part of the "Liability to income beneficiaries under life-income gifts." After the obligation to the income beneficiary of a gift annuity has been satisfied, the residual value of the charitable gift annuity will establish a permanent fund at the Foundation or be distributed to other charitable organizations selected by the donor. The present value of the estimated charitable residual of gift annuities which will be distributed to other charitable organizations is shown as a part of "Liability to charitable beneficiaries under life-income gifts." At December 31, 2020 and 2019, the estimated charitable residual values for charitable gift annuities which were intended to be distributed outside the Foundation were \$2.1 and \$1.9 million, respectively. The estimated charitable residual of gifts whose remainder will become a permanent fund of the Foundation is included in net assets of the Foundation.

Many states require a charity to register and meet state-specific requirements before offering charitable gift annuities in that state. Annually, the Foundation is required to meet certain state-specific requirements surrounding reserves held to meet its obligations to charitable gift annuity income beneficiaries. At December 31, 2020 and 2019, the Foundation's gift annuity reserves are in excess of the most stringent of these state-specific mandates of \$6.2 million and \$6.5 million, respectively.

The Foundation also administers charitable remainder trusts which require periodic payments to income beneficiaries named by the donor. At December 31, 2020 and 2019, the fair value of the charitable remainder trust investments was \$31.2 and \$28.7 million, respectively. The present value of the liability to charitable remainder trust income beneficiaries is included as a part of the "Liability to income beneficiaries under life-income gifts." This obligation is also discounted using the AFR on the gift date, which range from 1.2% to 11.0%. At December 31, 2020 and 2019, the obligation to trust income beneficiaries was \$16.8 and \$15.7 million, respectively. The actuarial value of the charitable residual for charitable trusts whose remainder will become a Foundation-administered permanent fund is included in the net assets of the Foundation. The present value of the estimated charitable residual of trusts which will be distributed to other charitable organizations is shown as a part of "Liability to charitable beneficiaries under life-income gifts." The Foundation revalues these liabilities annually based on historical discount rates, actuarial assumptions and the fair value of the underlying investments. At December 31, 2020 and 2019, the estimated charitable residual value for charitable remainder trusts which will be distributed outside the Foundation was \$8.3 and \$7.3 million, respectively.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Note 8: Liquidity and Availability

The ministry of the Foundation is focused on assisting the Church to both encourage legacy giving and to be good stewards of gifts received. Accordingly, the majority of assets held by the Foundation are either owned by other ministries ("Partner investment accounts") or represent assets held for the benefit of other ministries ("Endowment funds held for the benefit of others" as well as the majority of "Net assets with donor restrictions"). Donor-restricted endowment funds are not available for general expenditure.

Financial assets available for the support of the Foundation's own ministry, without donor or other restrictions limiting their use, were determined as follows at December 31:

		2020		2019
Cash	\$	353,379	\$	577,047
Marketable securities and other investments		942,036,445		852,200,488

Board approval	\$	(31,876,114)	\$	(29,867,453)
Financial assets available to management				
for general expenditure within one year	\$	10,379,757	\$	8,750,789

Many of the Foundation's services are provided to donors and ministries of the Church at no cost. These services include helping donors to consider their legacy as well as helping partner ministries both raise and steward their endowment funds. Endowment gifts given for the support of the Foundation's ministry help pay a growing portion of the Foundation's no-cost services. The annual distribution from these funds, whether held as with-donor-restrictions or board-designated, is based on the asset mix of each fund's investment. For both 2019 and 2020 the annual distributions were 3.75-4.25%. When an endowment that is held for the sole benefit of the Foundation falls below the

Notes to Consolidated Financial Statements December 31, 2020 and 2019

amount of the original endowment gift, the Foundation stops receiving distributions from that endowment until the endowment fund recovers its original gift value. As the Foundation receives additional endowment gifts for the support of Foundation operations, those gifts help to reduce the cost of Foundation–provided services to the Church.

From time to time, the Foundation receives legacy gifts that are given without donor restriction. These gifts are added to (or established as) board-designated-for-endowment assets and provide annual income to the ministry or ministries, if any, expressed as a donor preference. The Foundation also administers the Steward's Donor-Advised Fund. The gifts received in this fund are held as board-designated funds until a distribution is advised by their donor.

The primary source of operating revenue for the Foundation is provided by cost-recovery charges assessed on investments and gifts stewarded by the Foundation. The amount of this revenue fluctuates with changes in the investment value of the underlying assets. Operating reserves protect the Foundation's ability to operate in declining financial markets without increasing the cost to those served. The Foundation's policy is to generally hold 18-30 months of total operating revenue as an operating reserve for this purpose. During 2019 and 2020, the Foundation operated within these targeted reserve levels.

Note 9: Contributions Receivable

Contributions receivable represent gifts pending from donors' estates as well as gifts that were mailed to the Foundation prior to December 31 but received by the Foundation in January of the following year. The Foundation has received or anticipates receipt of substantially all of the recorded contributions receivable within the calendar year following their recording as a receivable.

Note 10: Employee Benefits

Pension Plan

Employees of the Foundation may participate in a defined-benefit plan of the Pension Fund of the Christian Church (Disciples of Christ). Contributions are paid monthly to the plan and are 14% (11% for the defined-benefit pensions and 3% for other benefits) of the base salaries of participating employees. Pension expense for both 2020 and 2019 was \$.3 million.

Notes to Consolidated Financial Statements December 31, 2020 and 2019

Note 11: Joint Investment Trust

The Joint Investment Trust of the Christian Church Foundation offers investment services, designed for endowment investments, to all ministries recognized as being sufficiently affiliated with the Stone-Campbell Movement. The unit values for the existing investor-class funds at December 31 were:

	2020		2019	
Common Balanced Fund	\$	293.48	\$	274.94
Beasley Growth Fund		449.63		419.60
Campbell Multi-Strategy Fund		93.29		89.31
Bostick Select Fund		127.48		116.50
Brown Income Fund		184.39		171.13

Note 12: Impact of the Pandemic on Operations

In March 2020, as a result of the spread of the SARS-CoV-2 virus and the incidence of COVID-19 (the "Pandemic"), the Foundation moved to a work-from-home environment. Other than this shift in the location of the Foundation's offices, there has been no significant disruption in the Foundation's operations or revenue as a result of the Pandemic. The Foundation does not anticipate that the Pandemic will negatively affect the financial position, results of operations or cash flows of the Foundation.
